INDEX **VOLUME 36**

INDEX TO SCIENTIFIC PAPERS — 1985

SUBJECT INDEX

Abdominal Radiography
- - Extraperitoneal gas: compartmental localization and identification of source, (Han, Tishler, Aldrete), 17

Abscess
- - Focal splenic disease demonstrated by ultrasound and computed tomography, (Costello, Kane, Oster, Clouse), 22

Acceptance Testing
- - Generator malfunctions detected by radiation waveforms, (Daniels, Witting), 248

Acetabular Injuries
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part II: trauma, (Howie), 287

Acetylsalicylic Acid
- - Preliminary report: acetylsalicylic acid therapy in the treatment of complications following abdominal radiation, (Ludgate), 138

Adrenal Gland
- - Bilateral adrenal hemorrhage associated with prior steroid use: CT diagnosis, (Lundstrom, Chen), 58

Ageing
- - Estimation of patient age based on plain chest radiographs, (Gross, Gerke, Shirazi, Whitehouse, Bookstein), 141

Air Bronchogram
- - The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103

Airway Device
- - The Montgomery tracheal cannula: radiological assessment: (Simerman, Nino-Murcia, Nino-Murcia, Rao, Lowry), 49

Aluminum Hydroxide Gel
- - Aluminum hydroxide gel bezoar — CT diagnosis, (Sussman, Goldberg, Glotzer), 148

Aneurysms
- - Ultrasonic features of aneurysms of splanchnic arteries, (Bret, Bretagnolle, Enoch, Partensky, Valette, Celles), 226
- - Intrapetrous intracavernous fusiform aneurysm of the internal carotid artery, (Blom), 337

Angiography
- - Oblique positioning for intravenous digital subtraction angiography images of the neck and head, (Pelz, Fox, Vinuela), 37
- - Coarctation proximal to both subclavian arteries in an adult: diagnosis by intravenous digital subtraction angiography, (Muller, Culham, Nichols), 63
- - A comparison of angiography, intravenous digital subtraction angiography and duplex ultrasound in the diagnosis of carotid artery atherosclerosis, (D'Alotto, Pelz, Rankin), 200
- - Quiz Case: Congenital bronchial atresia, (Tuttle), 268
- - Intrapetrous intracavernous fusiform aneurysm of the internal carotid artery, (Blom), 337

Appendix
- - Retained lead shot in the appendix, (Reddy), 47

Arthropathy
- - Hand, wrist, and elbow arthropathy in syringomyelia, (Resnik, Reed), 325

Arthrography
- - Cervical facet joint arthrography, (Dussault, Nicolet), 79
- - An update on the technique of the double-contrast arthrotomography of the shoulder, (Vézina, Beauregard), 176
- - Double-contrast arthrotomography of the shoulder: correlation of radiological and surgical findings in complete rotator cuff tears, (Vézina, Des Marchais, Beauregard), 183

Asbestos
- - Asymmetrical changes in asbestos-related disease, (Fisher), 110

Atelectasis
- - The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103

Atherosclerosis
- - Oblique positioning for intravenous digital subtraction angiography images of the neck and head, (Pelz, Fox, Vinuela), 37
- - A comparison of angiography, intravenous digital subtraction angiography and duplex ultrasound in the diagnosis of carotid artery atherosclerosis, (D'Alotto, Pelz, Rankin), 200

Barium Examination
- - Broncho-gastric tube fistula as a complication of esophageal replacement, (Stringer, Pablot), 61
- - The inadvertent CT demonstration of intussusception, (Mason, Quon), 68

Bezoar
- - Aluminum hydroxide gel bezoar — CT diagnosis, (Sussman, Goldberg, Glotzer), 148

Biliary Tree
- - A pseudo-choledocal cyst, (Yazbeck, Grignon, Boisvert), 74

Bone
- - Rapid regional osteolysis from pancreatic carcinoma, (Garcia), 150

Breast Cancer
- - Effective breast cancer detection with film-screen mammography, (Schmitt, Threatt), 304

Bronchial Obstruction
- - The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103

Bronchioloalveolar Carcinoma
- - Radiographic differences between two subtypes of bronchioloalveolar carcinoma, (Schraufnagel, Peloquin, Paré, Wang), 244

Bronchography
- - Quiz Case: Congenital bronchial atresia, (Tuttle), 268

Bronchopleural Fistula
- - Iatrogenic bronchopleural fistula caused by feeding tube insertion, (Sheffner, Gross, Birnberg, Birk), 52

Bullous Lung Disease
- - Computed tomography used to exclude pneumothorax in bullous lung disease, (Bourgouin, Cousineau, Lemire, Hébert), 341

Cancer
- - Primary osteosarcoma of kidney with liposarcomatous elements, (Tuttle, Salama, Matthews), 76
- - The cooling effect of tubular liquid flow during radiofrequency heating: the "rind" survival hypothesis, (Glazebrook, Jackson, Usiskin), 127
- - Hodgkin's disease complicating pregnancy, (Tawil, Mercier, Dardavino), 133
- - Rapid regional osteolysis from pancreatic carcinoma, (Garcia), 150
- - Acute bilobar collapse secondary to endobronchial metastatic seminoma, (Cooper, Kapp, Swett, Loke), 166
- - Therapeutic embolization of the hepatic artery, (Campbell, Mason, Flemming, Fraser), 212
- - The national Canadian study of carcinoma of the prostate treated

by external beam radiation (1970-1978): I. A medical audit, (McGowan, Hanson), 216
- - Radiographic differences between two subtypes of bronchioloalveolar carninoma, (Schraufnagel, Peloquin, Paré, Wang), 244
- - Ultrasonography in the diagnosis of thyroid lymphoma, (Wallace), 317
- - CT of myeloma involving the skull base, (Willinsky, Cooper, Kassel), 328
- - Subependymal metastases of an extracranial malignancy, (Spiegel, Pelz, Fox, Vinuela), 334

Carney's Triad
- - Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264

Carotid Artery
- - A comparison of angiography, intravenous digital subtraction angiography and duplex ultrasound in the diagnosis of carotid artery atherosclerosis, (D'Alotto, Pelz, Rankin), 200
- - Intrapetrous intracavernous fusiform aneurysm of the internal carotid artery, (Blom), 337

Cerebral Amyloid Angiopathy
- - Radiographic-pathologic correlation in cerebral amyloid angiopathy, a review of 12 patients, (Brown, Coates, Gilbert), 308

Cerebrovascular Atherosclerosis
- - Oblique positioning for intravenous digital subtraction angiography images of the neck and head, (Pelz, Fox, Vinuela), 37

Cervical Spine
- - Cervical facet joint arthrography, (Dussault, Nicolet), 79

Chance Fracture
- - Post-traumatic dorsal pseudomeningocele, (Kachooie, Bloch, Banna), 262

Chest
- - Aspect du cliché simple dans les ventricules supéro-inférieurs, (Heitz, Guérin, van Doesburg, Fournier, Fouron, Davignon), 12
- - The Montgomery tracheal cannula: radiological assessment, (Simerman, Nino-Murcia, Nino-Murcia, Rao, Lowry), 49
- - Pulmonary hylinizing granulomas, (Macedo, Adolph), 66
- - Benign collagenous nodule of the pleura associated with pleural plaques, (Raymond, Wang), 71
- - The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103
- - Asymmetrical changes in asbestos-related disease, (Fisher), 110
- - Estimation of patient age based on plain chest radiographs, (Gross, Gerke, Shirazi, Whitehouse, Bookstein), 141
- - Acute bilobar collapse secondary to endobronchial metastatic seminoma, (Cooper, Kapp, Swett, Loke), 166
- - Large unilateral chest tumors in children, (Cumming, Sabbah), 234
- - Diagnosis of diffuse malignant infiltration of lung (lymphangitic carcinomatosis) by percutaneous fine-needle aspiration biopsy, (Weisbrod, Stoneman, Tao), 238
- - Radiographic differences between two subtypes of bronchioloalveolar carcinoma, (Schraufnagel, Peloquin, Paré, Wang), 244
- - Quiz Case: Congenital bronchial atresia, (Tuttle), 268
- - Another look at the "ring-around-the-artery" in pneumomediastinum, (Landay, Cohen, Deaton, Jr.), 343
- - An unusual radiological artefact: a nipple ring, (Jackson), 345

Children
- - Unusual position of the spleen — a report of two patients, (Liu, Daneman), 163
- - Diagnostic imaging of liver masses in children, (Liu, Daneman, Stringer), 296

Choledocal Cyst
- - A pseudo-choledocal cyst, (Yazbeck, Grignon, Boisvert), 74

Chondroma
- - Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264

Coarctation
- - Coarctation proximal to both subclavian arteries in an adult: diagnosis by intravenous digital subtraction angiography, (Muller, Culham, Nichols), 63

Colloid Liver Imaging
- - Diagnostic imaging of liver masses in children, (Liu, Daneman, Stringer), 296

Complex Heart Malformations
- - Aspect du cliché simple dans les ventricules supéro-inférieurs, (Heitz, Guérin, van Doesburg, Fournier, Fouron, Davignon), 12

Computed Tomography
- - Focal splenic disease demonstrated by ultrasound and computed tomography, (Costello, Kane, Oster, Clouse), 22
- - Computed tomography and ultrasonography in splenic infarction, (Shirkhoda, Wallace, Sokhandan), 29
- - Hepatic rupture in preeclampsia: The role of diagnostic imaging, (Winer-Muram, Muram, Salazar, Massie), 34
- - CT findings in normal and dislocating shoulders, (Seltzer, Weissman), 41
- - Bilateral adrenal hemorrhage associated with prior steroid use: CT diagnosis, (Lundstrom, Chen), 58
- - The inadvertent CT demonstration of intussusception, (Mason, Quon), 68
- - Computed tomography and the lung: review of anatomic and densitometric features with their clinical application, (Genereux), 88
- - Pitfalls to avoid: the right paraspinal pseudotumor, (Avruch, Li), 144
- - Aluminum hydroxide gel bezoar — CT diagnosis, (Sussman, Goldberg, Glotzer), 148
- - Congenital left superior vena cava with absent right superior vena cava: A cause of progressive mediastinal widening, (Weisbrod, Todd), 155
- - Azygous continuation of a left inferior vena cava with a retroaortic right renal vein, (Fagelman, Kanzer), 158
- - Unusual position of the spleen — a report of two patients, (Liu, Daneman), 163
- - Computed tomography in osteochondritis dissecans of the patella, (Howie), 197
- - The inferior vena caval pseudo thrombus sign: diagnosis by dynamic CT after arm vein injection, (Mukai, Chen), 250
- - CT of osteoid osteoma of the femoral neck: the value of oblique reformatting, (Howie), 254
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging Part I: normal anatomy, (Howie), 278
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging Part II: trauma, (Howie), 287
- - Diagnostic imaging of liver masses in children, (Lieu, Daneman, Stringer), 296
- - Intravenous contrast medium and renal cyst, (Rawas, Tao), 301
- - Radiographic-pathologic correlation in cerebral amyloid angiopathy, a review of 12 patients, (Brown, Coates, Gilbert), 308
- - Septic arthritis of the hip joint: sonographic and CT findings, (Lopez, Sauerbrei), 322
- - CT of myeloma involving the skull base, (Willinsky, Cooper, Kassel), 328
- - Subependymal metastases of an extracranial malignancy, (Spiegel, Pelz, Fox, Vinuela), 334
- - Intrapetrous intracavernous fusiform aneurysm of the internal carotid artery, (Blom), 337
- - Computed tomography used to exclude pneumothorax in bullous lung disease, (Bourgouin, Cousineau, Lemire, Hébert), 341

Congenital Anomaly
- - Congenital left superior vena cava with absent right superior vena cava: A cause of progressive mediastinal widening, (Weisbrod, Todd), 155
- - Azygous continuation of a left inferior vena cava with a retroaortic right renal vein, (Fagelman, Kanzer), 158
- - Angiography of patent ductus arteriosus in neonates, (Keller, Chawla), 223
- - Quiz Case: Congenital bronchial atresia, (Tuttle), 268

Contrast Arthrography
- - Radiophosphate evaluation of loose hip prostheses, (Rosenthall, Aldis), 189

Contrast Media
- - A comparative trial of the diagnostic quality of and tolerance for two concentrations of ioxaglate when used for phlebography, (Thomas, Bowles, Treweeke, Turnbull), 209
- - Iohexol: a new, nonionic agent in adult peripheral arteriography, (Roy, Robillard, L'Homme, Li, Eng, Diehl, Shaw), 113
- - Intravenous contrast medium and renal cyst, (Rawas, Tao), 301

Contrast Urethrography
- - Etiology and method of radiologic assessment of male urinary incontinence, (McCallum, Alexander, Rogers), 4

Crohn's Disease
- - Urological complications in Crohn's disease, (McManamon, Reddy, MacLaughlin), 230

Cyst
- - Focal splenic disease demonstrated by ultrasound and computed tomography, (Costello, Kane, Oster, Clouse), 22
- - Intravenous contrast medium and renal cyst, (Rawas, Tao), 301

Digital Arteriography
- - Oblique positioning for intravenous digital subtraction angiography images of the neck and head, (Pelz, Fox, Vinuela), 37
- - Coarctation proximal to both subclavian arteries in an adult: diagnosis by intravenous digital subtraction angiography, (Muller, Culham, Nichols), 63
- - Moyamoya in sickle cell disease demonstrated by DSA and hexabrix, (Ramsewak, Gill, Lo), 332

Dislocation
- - CT findings in normal and dislocating shoulders, (Seltzer, Weissman), 41
- - Lumbosacral dislocation, (Resnik, Scheer, Adelaar), 259

Double-Contrast Arthrography
- - An update on the technique of double-contrast arthrotomography of the shoulder, (Vézina, Beauregard), 176
- - Double-contrast arthrotomography of the shoulder: correlation of radiological and surgical findings in complete rotator cuff tears, (Vézina, Des Marchais, Beauregard), 183

Down Syndrome
- - Tibiotalar slant in Down Syndrome, (Rush, Rubenstein), 257

Duplex Ultrasonography
- - A comparison of angiography, intravenous digital subtraction angiography and duplex ultrasound in the diagnosis of carotid artery atherosclerosis, (D'Alotto, Pelz, Rankin), 200

Eclampsia
- - Hepatic rupture in preeclampsia: The role of diagnostic imaging, Muram, Salazar, Massie), 34

Endobronchial Metastatic Seminoma
- - Acute bilobar collapse secondary to endobronchial metastatic seminoma, (Cooper, Kapp, Swett, Loke), 166

Ependyma
- - Subependymal metastases of an extracranial malignancy, (Spiegel, Pelz, Fox, Vinuela) 334,

Esophago-Bronchial Fistula
- - Broncho-gastric tube fistula as a complication of esophageal replacement, (Stringer, Pablot), 61

Extraperitoneal Gas
- - Extraperitoneal gas: compartmental localization and identification of source, (Han, Tishler, Aldrete), 17

Facet Joints
- - Cervical facet joint arthrography, (Dussault, Nicolet), 79

Femur
- - CT of osteoid osteoma of the femoral neck: the value of oblique reformatting (Howie), 254

Fibreoptic Bronchoscopy
- - The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103

Fine-Needle Aspiration Biopsy
- - Diagnosis of diffuse malignant infiltration of lung (lymphangitic carcinomatosis) by percutaneous fine-needle aspiration biopsy, (Weisbrod, Stoneman, Tao), 238

Fistula
- - Urological complications in Crohn's disease, (McManamon, Reddy, MacLaughlin), 230

Foreign Bodies
- - Retained lead shot in the appendix, (Reddy), 47

Fractures
- - Complementary role of wrist arthrography in non-union of scaphoid fractures, (Roy, Godin, Dussault), 194
- - Lumbosacral dislocation, (Resnik, Scheer, Adelaar), 259
- - Computed tomography of the pelvis: a protocol for multiplanar imaging. Part II: trauma, (Howie), 287

Gastric Tube
- - Broncho-gastric tube fistula as a complication of esophageal replacement, (Stringer, Pablot), 61

Gastrografin
- - Aluminum hydroxide gel bezoar — CT diagnosis, (Sussman, Goldberg, Glotzer), 148

Generator Faults
- - Generator malfunctions detected by radiation waveforms, (Daniels, Witting), 248

Hemophilia
- - Resolution of myositis ossificans in a hemophiliac, (Coblentz, Cockshott, Martin), 161

Hepatic Artery
- - Therapeutic embolization of the hepatic artery, (Campbell, Mason, Flemming, Fraser), 212

Hepatic Rupture
- - Hepatic rupture in preeclampsia: The role of diagnostic imaging, (Winer-Muram, Muram, Salazar, Massie), 34

Hematoma
- - Focal splenic disease demonstrated by ultrasound and computed tomography, (Costello, Kane, Oster, Clouse), 22

Hip
- - Septic arthritis of the hip joint: sonographic and CT findings, (Lopez, Sauerbrei), 322

Hip Arthroplasty
- - Radiophosphate evaluation of loose hip prostheses, (Rosenthall, Aldis), 189

Hodgkin's Disease
- - Hodgkin's disease complicating pregnancy, (Tawil, Mercier, Dandavino), 133

Hylinizing Granulomas
- - Pulmonary hylinizing granulomas, (Macedo, Adolph), 66

Hyperalimentation
- - Iatrogenic bronchopleural fistula caused by feeding tube insertion, (Sheffner, Gross, Birnberg, Birk), 52

Hyperdense Renal Cyst
- - Intravenous contrast medium and renal cyst, (Rawas, Tao), 301

Hyperthermia
-- The cooling effect of tubular liquid flow during radiofrequency heating: the "rind" survival hypothesis, (Glazebrook, Jackson, Usiskin), 127

Hysterosalpingography
-- Salpingitis isthmica nodosa in female infertility, (Karasick, Karasick, Schilling), 118

Iatrogenic Disease
-- The radiologic assessment of iatrogenic urethral injury, (McCallum, Rogers, Alexander), 122

Image Reconstruction
-- CT of osteoid osteoma of the femoral neck: the value of oblique reformatting, (Howie), 254
-- Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part I: normal anatomy, (Howie), 278
-- Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part II: trauma, (Howie), 287

Incontinence
-- Etiology and method of radiologic assessment of male urinary incontinence, (McCallum, Alexander, Rogers), 4

Infarction
-- Focal splenic disease demonstrated by ultrasound and computed tomography, (Costello, Kane, Oster, Clouse), 22
-- Computed tomography and ultrasonography in splenic infarction, (Shirkhoda, Wallace, Sokhandan), 29

Infection
-- Extraperitoneal gas: compartmental localization and identification of source, (Han, Tishler, Aldrete), 17

Inferior Vena Cava
-- The inferior vena caval pseudo thrombus sign: diagnosis by dynamic CT after arm vein injection, (Mukai, Chen), 250

Infertility
-- Salpingitis isthmica nodosa in female infertility, (Karasick, Karasick, Schilling), 118

Infratemporal Fossa
-- CT of myeloma involving the skull base, (Willinsky, Cooper, Kassel), 328

Intracerebral Hematoma
-- Radiographic-pathologic correlation in cerebral amyloid angiopathy, a review of 12 patients, (Brown, Coates, Gilbert), 308

Intragastric Balloon
-- Balloon therapy for obesity — when the balloon bursts, (Holland, Bach, Duff), 347

Interventional Radiology
-- Therapeutic embolization of the hepatic artery, (Campbell, Mason, Flemming, Fraser), 212
-- Diagnosis of diffuse malignant infiltration of lung (lymphangitic carcinomatosis) by percutaneous fine-needle aspiration biopsy, (Weisbrod, Stoneman, Tao), 238

Intravenous Digital Subtraction Angiography
-- A comparison of angiography, intravenous digital subtraction angiography and duplex ultrasound in the diagnosis of carotid artery atherosclerosis, (D'Alotto, Pelz, Rankin), 200

Intussusception
-- The inadvertent CT demonstration of intussusception, (Mason, Quon), 68

Ioxaglate Meglumine
-- Moyamoya in sickle cell disease demonstrated by DSA and hexabrix, (Ramsewak, Gill, Lo),

Kidney
-- Primary osteosarcoma of kidney with liposarcomatous elements, (Tuttle, Salama, Matthews), 76

Lead Shot
-- Retained lead shot in the appendix, (Reddy), 47

Leiomyosarcoma
-- Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264

Ligamentum Teres
-- Pitfalls to avoid: the right paraspinal pseudotumor, (Avruch, Li), 144

Liver
-- Hepatic rupture in preeclampsia: the role of diagnostic imaging, (Winner-Muram, Muram, Salazar, Massie), 34
-- Pitfalls to avoid: the right paraspinal pseudotumor, (Avruch, Li), 144
-- Therapeutic embolization of the hepatic artery, (Campbell, Mason, Flemming, Fraser), 212
-- Diagnostic imaging of liver masses in children, (Liu, Daneman, Stringer), 296

Loosening
-- Radiophosphate evaluation of loose hip prostheses, (Rosenthall, Aldis), 189

Low Osmolality
-- A comparative trial of the diagnostic quality of and tolerance for two concentrations of ioxaglate when used for phlebography, (Thomas, Bowles, Treweeke, Turnbull), 209

Lumbar Spine
-- Lumbosacral dislocation, (Resnik, Scheer, Adelaar), 259

Lung Anatomy
-- Computed tomography and the lung: review of anatomic and densitometric features with their clinical application, (Genereux), 88

Lung Density
-- Computed tomography of the lung: review of anatomic and densitometric features with their clinical application, (Genereux), 88

Lung
-- Pulmonary hylinizing granulomas, (Macedo, Adolph), 66
-- The importance of proximal and distal air bronchograms in the management of atelectasis, (Harris), 103
-- Asymmetrical changes in asbestos-related disease, (Fisher), 110
-- Acute bilobar collapse secondary to endobronchial metastatic seminoma, (Cooper, Kapp, Swett, Loke), 166
-- Diagnosis of diffuse malignant infiltration of lung (lymphangitic carcinomatosis) by percutaneous fine-needle aspiration biopsy, (Weisbrod, Stoneman, Tao), 238
-- Radiographic differences between two subtypes of bronchioloalveolar carcinoma, (Schraufnagel, Peloquin Paré, Wang), 244
-- Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264
-- Computed tomography used to exclude pneumothorax in bullous lung disease, (Bourgouin, Cousineau, Lemire, Hébert), 341

Lymphoma
-- Ultrasonography in the diagnosis of thyroid lymphoma, (Wallace), 317

Mammography
-- Effective breast cancer detection with film-screen mammography, (Schmitt, Threatt), 304

Medical Audit
-- The national Canadian study of carcinoma of the prostate treated by external beam radiation (1970-1978): I. A medical audit, (McGowan, Hanson), 216

Montgomery Tracheal Cannula
-- The Montgomery tracheal cannula: radiological assessment, (Simerman, Nino-Murcia, Nino-Murcia, Rao, Lowry), 49

Morbid Obesity
- - Balloon therapy for obesity — when the balloon bursts, (Holland, Bach, Duff), 347

Moyamoya
- - Moyamoya in sickle cell disease demonstrated by DSA and hexabrix, (Ramsewak, Gill, Lo), 332

Multiplanar Reformatting
- - CT of osteoid osteoma of the femoral neck: the value of oblique reformatting, (Howie), 254
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part I: normal anatomy, (Howie), 278
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part II: trauma, (Howie), 287

Myeloma
- - CT of myeloma involving the skull base, (Willinsky, Cooper, Kassel), 328

Myositis Ossificans
- - Resolution of myositis ossificans in a hemophiliac, (Coblentz, Cockshott, Martin), 161

Nasal Cavity
- - CT of myeloma involving the skull base, (Willinsky, Cooper, Kassel), 328

Nasogastric Tubes
- - Iatrogenic bronchopleural fistula caused by feeding tube insertion, (Sheffner, Gross, Birnberg, Birk), 52

Nerve Root Avulsion
- - Post-traumatic dorsal pseudomeningocele, (Kachooie, Bloch, Banna), 262

Neuropathic Joints
- - Hand, wrist, and elbow arthropathy in syringomyelia, (Resnik, Reed), 325

Nipple
- - An unusual radiological artefact: a nipple ring, (Jackson), 345

Nodules
- - Pulmonary hyalinizing granulomas, (Macedo, Adolph), 66
- - Benign collagenous nodule of the pleura associated with pleural plaques, (Raymond, Wang), 71

Nonionic Contrast Agents
- - Iohexol: a new nonionic agent in adult peripheral arteriography, (Roy, Robillard, L'Homme, Li, Eng, Diehl, Shaw), 113

Non-Union
- - Complementary role of wrist arthrography in non-union of scaphoid fractures, (Roy, Godin, Dussault), 194

Obesity Surgery
- - Case reports: examination of the excluded distal stomach after gastric bypass for obesity, (Rankin, Grace), 146

Obstructive Jaundice
- - A pseudo-choledocal cyst, (Yazbeck, Grignon, Boisvert), 74

Omphalocele
- - The prenatal ultrasonographic features of omphalocele: a study of 10 patients, (Brown), 312

Osteochondral Fracture
- - Computed tomography in osteochondritis dissecans of the patella, (Howie), 197

Osteochondritis Dissecans
- - Computed tomography in osteochondritis dissecans of the patella, (Howie), 197

Osteoid Osteoma
- - CT of osteoid osteoma of the femoral neck: the value of oblique reformatting, (Howie), 254

Osteolysis
- - Rapid regional osteolysis from pancreatic carcinoma, (Garcia), 150

Osteosarcoma
- - Primary osteosarcoma of kidney with liposarcomatous elements, (Tuttle, Salama, Matthews), 76

Pancreas
- - Rapid regional osteolysis from pancreatic carcinoma, (Garcia), 150

Pancreatitis
- - Extraperitoneal gas: compartmental localization and identification of source, (Han, Tishler, Aldrete), 17

Paraganglioma
- - Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264

Patent Ductus Arteriosus
- - Angiography of patent ductus arteriosus in neonates, (Keller, Chawla), 223

Pelvis
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part I: normal anatomy, (Howie), 278
- - Computed tomography of the bony pelvis: a protocol for multiplanar imaging. Part II: trauma, (Howie), 287

Percutaneous Decompression
- - Balloon therapy for obesity — when the balloon bursts, (Holland, Bach, Duff), 347

Perforation
- - Extraperitoneal gas: compartmental localization and identification of source, (Han, Tishler, Aldrete), 17

Peripheral Arteriography
- - Iohexol: a new nonionic agent in adult peripheral arteriography, (Roy, Robillard, L'Homme, Li, Eng, Diehl, Shaw), 113

Pheochromocytoma — Extraadrenal
- - Carney's triad: radiographic diagnosis, natural history and importance of pulmonary chondromas, (Mishkin, Vasinrapee, Vora, Bier, Mackabee), 264

Phlebography
- - A comparative trial of the diagnostic quality of and tolerance for two concentrations of ioxaglate when used for phlebography, (Thomas, Bowles, Treweeke, Turnbull), 209

Pitfalls to Avoid
- - The right paraspinal pseudotumor, (Avruch, Li), 144
- - The inferior vena caval pseudothrombus sign. Diagnosis by dynamic CT after arm vein injection, (Mukai, Chen), 250

Pleura
- - Benign collagenous nodule of the pleura associated with pleural plaques, (Raymond, Wang), 71
- - Asymmetrical changes in asbestos-related disease, (Fisher), 110

Pneumomediastinum
- - Another look at the "ring-around-the-artery" in pneumomediastinum, (Landry, Cohen, Deaton, Jr.), 343

Pneumothorax
- - Iatrogenic bronchopleural fistula caused by feeding tube insertion, (Sheffner, Gross, Birnberg, Birk), 52
- - Computed tomography used to exclude pneumothorax in bullous lung disease, (Bourgouin, Cousineau, Lemire, Hébert), 341

Positioning
- - Oblique positioning for intravenous digital subtraction angiography images of the neck and head, (Pelz, Fox, Vinuela), 37

Postoperative Stomach
- - Case reports: examination of the excluded distal stomach after gastric bypass for obesity, (Rankin, Grace), 146

Preeclampsia
- - Hepatic rupture in preeclampsia: the role of diagnostic imaging, (Winer-Muram, Muram, Salazar, Massie), 34

Pregnancy
- - Hepatic rupture in preeclampsia: the role of diagnostic imaging, (Winer-Muram, Muram, Salazar, Massie), 34
- - Hodgkin's disease complicating pregnancy, (Tawil, Mercier, Dandavino), 133
- - The Prenatal ultrasonographic features of omphalocele: a study of 10 patients, (Brown), 312

Prenatal Ultrasonography
- - The prenatal ultrasonographic features of omphalocele: a study of 10 patients, (Brown), 312

Pseudothrombosis
- - The inferior vena caval pseudo thrombus sign: diagnosis by dynamic CT after arm vein injection, (Mukai, Chen), 250

Pseudotumor
- - Pitfalls to avoid: the right paraspinal pseudotumor, (Avruch, Li), 144

Pulmonary Angiography
- - Quiz Case: Congenital broncheal atresia, (Tuttle), 268

Quality Control
- - Generator malfunctions detected by radiation waveforms, (Daniels, Witting), 248

Radiation Complications
- - Preliminary report: acetylsalicylic acid therapy in the treatment of complications following abdominal radiation, (Ludgate), 138

Radiation Therapy
